Assessor Comments Nutrien is pleased to present Jackaroo's UALQ206 for sale in the inaugural Stud Angus Female Sale for Jackaroo Angus stud. This registered female has been offered due to tightening season and fresh heifers coming through. It should be noted that due to lateness of term of pregnancy, that these females if looking close to calving are able to stay on the property until calved and delivered once calf is old enough to travel. This heifer has great carcass data at +10.3 EMA and a +3.9 for IMF, as well as solid growth and good outlook. All the Jackaroo cattle are handled frequently and walked through yards at weaning so have a good reputation for being quiet and safe for anybody to handle. Bulls and females are presented in their working clothes with no special feeding occurring so should bounce away upon arrival at their new homes. Vendor can deliver females locally or away if organised prior to sale.
