Assessor Comments	This run of PTIC Autumn calving Angus Cows offered by Dukalskis Farming is as good as I have seen. Only being offered due to seasonal conditions, this herd reduction consists of the complete run of the remaining autumn calving Cows in the operation. The Cows have been meticulously managed. Selection of Females in the self replacing program based on type, milk, frame correctness and temperament. Offspring of these Cows carry reputation with both feedlot and restockers for outstanding weight for age and terrific conversion ability. These are truly productive performance Females. An important part of the management program is emphasis on feet, annually this herd has been inspected, scrutinizing heavily on any long or cracking hoof, which have been culled. Vendor has 3 lots in this sale
