Vendor Comments	Annual sale of our lead merino wether lambs. Wethers have performed well this season.		
Assessor Comments	Very well-bred line of weaned merino wether suckers. Lambs are in fresh sappy condition, carry a clean bill of health and have not taken a step back since weaning. This represents the lead draft from the Kullingrah operation with a 50% tail retained. Lambs present evenly as a group and if given the right opportunity will finish for the trade. Alternatively they would make excellent medium to large frame type woolcutters. They are plain bodied and would cut plenty of wool if required.
