Assessor Comments	A productive line of 370 x July/ August 2023 Drop Merino lambs. Long stapled lambs that will grow into heavy lambs if given the opportunity and provide the buyer with a fleece rebate within a few months. The 'Riverside' sheep are bred for staple length, soft, high yielding wools on plain skinned fertile sheep. Animal health treatments are up to date and the ewe lambs have been Gudair vaccinated. They are offered ad lib loose lick. Of the 370 x lambs approx 273 x are wether lambs and 97 x are ewe lambs. A small tail was drafted out at assessment. An opportunity to purchase well bred merino lambs from a well managed flock. Buyers note: lambs are healthy and sound but lacking a touch of cover given the high instance of multiples, lambs age and the late winter in the Crookwell district and slow clover growth. Lambs will respond to warmer weather and a high protein diet. Previous purchasers are very happy with the lambs performance.
