Assessor Comments	Opportunity to purchase 200 Poll Dorset cross suckers that have been weaned and drenched ready to be shorn and put away ready to sell in the autumn. They are out of medium to large framed Meadow View blood ewes. At assessment there was a 10% tail taken out of the mob. Also all the lambs were ran through a auto drafter and these were the lambs that weighed under 30 kg live. This lot of lambs would benefit from a shearing and nutrition going forward. There is another 2 lots of these lambs being offered in the sale from the same vendor. NB Some lambs are showing signs of scabby mouth as they have been chewing on thistles, Refer photo. Also at assessment it was noticed that there is a percentage of lambs with weeping eyes and when checked were found not to have seed present in their eyes.
