Assessor Comments	All of the Moyle family adult ewes were joined to Primeline maternals for the specific purpose of breeding ewe lambs. Due to the high fertility of the Moyle flock no ewe lambs have been retained, and the vendor is proud to offer their entire 2023 drop ewe lambs. This is one of two lines being sold as a run out the gate (total of 466). These ewe lambs were bred out of Pure Primeline ewes purchased from Romani Pastoral Company in the 2017 Lambpro ewe sale. Sires purchased from Lambpro and are selected on fertility, growth, fat & EMD. All ewes on the property have been Gudair vaccinated since it's inception 6 years ago, and the foundation ewes vaccinated at Romani with 13 years of OJD vaccination history. Weaned on the 11th of November these are Ideal young ewes with plenty of genetics behind them, all ewe lambs have been grain imprinted before weaning. A true representation of the Primeline Maternal breed.
