Vendor Comments	The flock average micron is 19		
Assessor Comments	A good line of well bred Mo wether lambs. These lambs are med frame and present in a store condition. These lambs will continue to grow out into good heavy lambs in the future with correct feed and management. They have been started on finisher pellets. Ideal lambs to take through as kill lambs or alternatively would make great wool cutters in the future. Please note all these lambs went through the auto scales from 23-30kg
