	Were. good to handle throughout yards during drafting, cattle didn't like being singled out in high pressure areas, but when released from a high pressure area they were good to handle. Were no troubles during photo and video process.										
Handled With	Bikes , Dogs , On foot , Vehicles										
Assessor Comments	A good line of m/s yearlings to put away over the summer, autumn period. Vendor bred calves out of Santa & Brangus x cows, calves are weaned and on the do! Cattle show good signs of stretch and frame coming off natives they will do like steam with some good pasture put underneath them. Vet treatments are all up to date and calves were pleasant to handle. Buyers a tidy run of yearlings to grow and stretch out coming into a rising market. Good compensatory gains available
