|--------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Assessor Comments  | A very nice line of vendor bred Angus & Angus cross steers. All the hard work is done with these steers, yard weaned, well handled and up to date with animal health. Steers present in good condition and given the seasonal conditions they have experienced and post weaning the purchaser should benefit from good weight gains given the right opportunity. Steers are well bred from a quality line of cows carrying Lawson genetics, sired by Booroomooka and Kansas Angus bulls. Steers stand on good bone and generally show good muscle development with sound confirmation. Two steers assessed that had old pink eye scarring |
