Assessor Comments	Top Quality Angus Steers from a top performing herd which are never normally available for sale at such light weights as they are grown out to heavier kill or feeder weights. A good opportunity exists here to put together a line of one mark VB steers. Steers averaged 248 kg at time of assessment (range 190kg- 407kg full). These steers will not disappoint and come with the highest of recommendations. The Steers have had all the hard work done, bunker trained and well handled. This is the complete draft of the Autumn steer calves.
