Assessor Comments	20 NSM Simmental X Heifers, averaging 440kg full at assessment. These Heifers are predominately large frame and in forward store condition. They are sired by Barana Simmental Bulls out of Simbra/Simmental Cows. They are in ideal joining condition and are on a rising plain of nutrition. These heifers will benefit from future handling through the yards, as they are quick to move away when put under pressure. These heifers will suit a larger scale breeding program, or due to their high yielding carcass would suit a feeder or fattening trade. Buy with confidence.
