Assessor Comments	A well-bred line of 39 Angus Future Breeders that show good weight for age averaging 327kg at assessment. This line is the top draft of heifers which are easy doing, out of large framed cows. These heifers are sired by registered Blackstone Angus bulls and will grow into a very neat line given the opportunity. This line of heifers will be ideal to background for a feedlot, or grow out and join to the bull of your choice. These heifers are ready to go having had a drench, B12, 7 in 1 and Pestiguard, previous drops of these heifers have preformed well in in the past and these will not disappoint. The vendor also has a small mob of 9 PTIC cows on the market in the Eastern States Cattle Sale.
