Any Access To Rams or Stags?	To vendor's best knowledge, the female portion of this lot has had no access to rams or stags.		
Assessor Comments	Tops of the drop vendor bred white Suffolk cross merino mixed sex new season lambs. These lambs have the maturity and the frame to top up quickly on quality feed. Presenting a perfect trade given the position of the kill lamb market and the average weight of these feeder lambs. All lambs were weighed to 30kg plus full at average over 36kg with a heavy top end in them. These lambs have been imprinted on their mothers trail fed cereal grain over the last few weeks to prepare them for feedlot entry if required. A 10% tail has been retained. Very odd lamb has been treated for fly and wool is growing back as they recover. A neat line of feeder lambs for your bidding competition.
