Assessor Comments Charmac Poll Merino Prime lambs will please. The Stud purpose breeds the Merino for high meat:fat:bone ratio aiming for higher dressing percentage which has been the main focus over the past 11 years of breeding. The lamb are freshly drenched and vaccinated and have good stomachs and so will transfer onto new diets very well and with little trouble. These lambs put on good feed will gain optimal growth rates and finish within a month. Buy with confidence as these lambs will perform from previous feedback. Outstanding wether lambs which will suit any program going forward if your looking for wool cutters to which they have cut an avg of 17 micron in previous shearing or a short trade into domestic markets.
