Assessor Comments	This is a very impressive line of purpose bred and prepared store lambs. The Paech family have made a conscious plan to market their 2023 drop lambs as top end store lambs. No expense has been spared to ensure that these lambs have a great foundation of management and animal health to be a successful trade for their purchaser. The Paech's have embraced the use of electronic NLIS tags & captured individual weights of all lambs at 85, 110 & 145 days of age. this line is the top 737 of 1800 lambs born, and have a measured average daily weight gain of 240g/hd/day. Sired by top end Ferndale Poll Dorset rams, that are selected for growth and muscling. The ewe base are a mix of traditional 1st BL/MerX ewes, WSFK/Mer X Ewes & WSFK/BL/MerX ewes. These lambs are well grown and will have the capability to meet either trade or export weights. All lambs are crutched. Highly recommended. please note the vendor a 2nd line of 338 lighter lambs also in this sale.
