Quiet: 106 head Slightly Stirry: 10 head	Quiet: 90 head Slightly Stirry: 26 head	Temperament not assessed in Paddock

These heifers are very well educated and are a pleasure to work through the yards. The heifers in this lot listed as slightly stirry become uneasy when separated from the mob or excess pressure is applied. These heifers are not aggressive and settle quickly when pressure is taken off or released back into the mob.

Handled With: Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , Horses

Notable Traits

	Traits
22 Head	Buffalo fly irritation
17 Head	Ring worm Markings

Assessor Comments: Buyers 3 decks of quality Angus, Rangeland Angus & Charolais Western Queensland bred heifers. These heifers offers an opportunity to secure young females that are out of a quality breeding herd with an emphasis on fertility and do ability. These heifers have been properly weaned and handled in the yards and paddocks allowing purchasers the opportunity to buy with confidence. The heifers in this lot present in store condition with plenty of compensatory weight gain on offer. The Duggan family do not normally offer these heifers for sale this light as they would be retained for future breeders or heavy weight feeders, meeting strong interest from previous purchasers. Buyers please note in this lot there are 7 heifers showing brindle coloration as well as a percentage of heifers that display signs of lice, this would be easily treated with a back line.
