J-BAS Score	5		

Vendor Comments	Great too handle in the paddock, they never had a whole lot of handling in the yards but should settle down with more handling. They've grown well on their mothers and since weaning especially since the weather warmed up.

	Heifers block up in the yards however are free moving and do need more time spent with them in the yards, I noticed them settle in the time we where there. The vendor handles them well in the paddock with no fuss.							
Handled With	Bikes , Dogs , Horses , Vehicles							
Assessor Comments	This line of backgrounder heifers are a great cross of Charolais and Droughtmaster. These heifers will perform very well considering how they've performed so far. They appeared at assessment to be blemish free in the eyes, legs, hips and feet. One heifer as seen in photos is double muscled- not detrimental. These heifers are bred out of a good predominantly large framed herd of Droughtmaster, Droughtmaster cross cows so i expect this line to grow out to good large framed heavy weight heifers suitable to both Domestic & Export markets, alternatively grown out and joined to the sire of your choice. I highly recommend these heifers. This Vendor has a line of vendor bred Angus steers in this sale also.
