Assessor Comments	A neat deck and a half of vendor-bred NSM heavy feeder heifers. Heifers have been preg-tested non-detectable on-property by the vendor at the time of assessment. These heifers are bred from large framed Santa and Simmental cross cows to good quality Angus, Charolais and Santa bulls. All bulls are from reputable studs, including Clunie Range Angus, ANC Charolais and Swan Hill Santa Gertrudis. This run of heifers present in a store and forward store condition, having been on oats for the past few months. Earlier this week, the heifers were moved off the oats and onto a silage-based backgrounding ration fed via a bunk. They were also treated with 5-in-1 and bovisis at this time. These heifers display excellent frame and softness, and would suit a breeding program or the export feeder market.
