Assessor Comments	A quality line of predominately droughtmaster yearling heifers that present in good forward store condition and are ideally suited to background for a feedlot operation or make future breeders. Cattle from Rosewood Downs have always been renown for their doing ability as they are bred in light hill and heavily timbered country and offer potential buyers good compensatory weight gains. These heifers are very placid and easy to work with in their familiar environment at home and were quick to settle after being assessed and back in the mob.
