Assessor Comments	A great line of one mark steers that have been weaned and are ready to be taken on with. They are all up to date with health treatments having previously had there 5in1 plus booster in April & June along with a B12 + Selenium and drenched with Doramectin at weaning. Steers are showing a great depth of body with good bone structure and will perform very well if continued with the good management practices they have had previously. Steers are originally out of a Southern bred cow herd and will be an asset in most operations. Steers will be offered over two lots and delivered as a run out the gate of		

1x100hd & 1x70hd. A very even line of steers. Some steers had slight wart marks near head. Some steers were noted to have the beginning stages of pink eye which were all treated at assessment. Buy on the basis some steers may have blemishes active pinkeye will be assessed prior to delivery.
