	Steers were very good to handle through the yards. All cattle were drafted through the pound without any fuss. With 6 steers becoming agitated while being weighed but settled immediately once released back into the mob. Would suit all stock handling experience.

Assessor Comments	Buyers, a run of good quality store condition Angus steers that are ready to bound ahead with a flush of fresh feed. Steers weighed 215 - 360Kg to average 270.3Kg at assessment. These cattle are only being sold due to ongoing dry conditions but have historically being grown out to feeder weights. With a light tail being removed these steers present a great opportunity for the prospective buyer. Vendor has another lot of 58 Heifers for sale to make up a total of 99 Head. Please note 2 steers were treated with Terramycin aerosol at assessment and will be retreated at delivery.
