|                    | Heifers were very good to handle through the yards. All cattle were drafted through the pound without any fuss. With 5 heifers becoming slightly agitated while being weighed but settled immediately once released back into the mob. Would suit all stock handling experience.                                                                                                                                                                                                                                              |                  |                                           |      |                                     |      |

| Assessor Comments  | Buyers, a run of good quality store condition Brooksby blood Angus heifers that are ready to bound ahead with a flush of fresh feed. Heifers weighed 214 - 350Kg to average 264.6Kg at assessment. These cattle are only being sold due to ongoing dry conditions but have historically being grown out to joinable weight or feedlot entry. With a light tail being removed these heifers present a great opportunity for the prospective buyer. Vendor has another lot of 41 Steers for sale to make up a total of 99 Head. |                  |                                           |      |                                     |      |
