Comment on Fat Score 1 Cattle Weaners are in strong store condition. No issues with travel are anticipated if normal industry procedures are followed.

Vendor Bred No
Vendor has owned stock for More than 12 months
Stock History Two mobs of station mated cows with calves at foot were purchased A+ in Sept and Nov 2022. These are the calves that were inside those cows or were small calves on those cows on arrival.
Lifetime Traceable 40 of the 41 head are 100% LT.
Bloodlines Cows in calf prior to purchase were joined to Moogenilla and Trio Angus bulls.

Grazing Conditions Grazing green native and improved pasture. Prior to assessment running with cows in native and improved paddocks which

are freshening up after November rain.

Returned to: Fresh paddocks with only the assessed / sale weaners.

Burr/Seed in Coat	No Burr or Seed of weeds declared noxious observed in the coats at assessment			
HGP Status	The owner declares that the cattle have not been treated with HGP at any period of their lives			
Eligibilities	PCAS Eligible			
J-BAS Score	6			
	Quality Grades		Store Condition	
	Very Good	15%	Store	100%
	Good	63%		
	Fair	22%		
Temperament	Yards		Crush	Paddock
	Quiet: 41 head		Quiet: 36 head Slightly Stirry: 5 head	Temperament not assessed in Paddock
	They were good to handle in the race and through the crush. Five head were slightly agitated in and exiting the crush. All settled quickly back in the mob. Given they were weaned with nose rings they were very good to handle in the yards. Vendor will move them in and through the yards between assessment and delivery.			
Handled With	Bikes			
Assessor Comments	A fair through to mostly good quality line of weaner steers. They range from Angus x Angus, Angus cross through to some Angus x steers showing some Bos Indicus content. They suit to background to heavy domestic and then onto export feeder steer weights. They are eligible for Grass finished programs. Most steers are 6 - 9 months old and then another group are 12 - 14 months old that came as baby calves on cows purchased in November 2022. They have been weaned using nose rings from Sept - Nov and then have been running back with the dried off cows. They were separated at assessment and will be handled in and through the yards prior to delivery. However they were very settled in the yards and are fully weaned. Active pink eye was noted in a keeper steer at assessment. Vendor will treat any suspect eyes between now and delivery and they will be rechecked prior to delivery. A nice line of weaner steers carrying very little condition but which are fresh in the coat and moving ahead nicely.			
Assessor	Andrew Wilkie (Level 1 Accredited) Phone: 0427 011 608			
Delivery Period	16/12/2023 to 20/12/2023 (5 days)
