Assessor Comments	This is a quality line of Angus Heifers. These heifers are out of Speriby North Blood cows and Dunoon Angus Bulls. These calves considering the conditions have benefited from the change of season in the past 5 weeks. The temperament in these heifers is exceptionally good. They are up to date in their animal husbandry. Heifers were weaned at assessment onto silage. There are 3 heifers with white around their teats and 1 with white to her navel. These heifers would make great breeding cows as they are out of a very nice medium frame cow herd.
