Quiet: 54 head	Quiet: 61 head	
Slightly Stirry: 4 head	Slightly Stirry: 7 head	

An exceptional mob to handle through the yards, walking away self-controlled and calm through gates, minimal effort or push required to load the force, race & crush. 7 steers were marginally agitated when confined in the crush yet not aggressive at all. Overall, it is very evident the time and effort that the Vendors have invested into educating these cattle was on display - how content, quiet and easily managed they are through the yards.

Handled With	Bikes , Dogs , On foot
Assessor Comments	Good quality Composite Cross Steers - Angus x, Charolais x , Charbray, Santa x . EU accredited. Steers to background to a feeder weight. As noted in the temperament section the Catumnal cattle are very quiet and a pleasure to handle evident of the time and effort invested by the Vendors in the education program and breeding selection criteria. Two steers light weeping eyes from dust & a small number with light old fly rub marks.
