	Heifers were respectful and pliable at all times in the yards. Four heifers became anxious when confined for weighing but exited the crush slowly and settled immediately upon their return to the mob.		
Handled With	Bikes , Dogs , On foot , Vehicles		
Assessor Comments	An even line (260-359kg full) of vendor bred, grain assisted, crossbred heifers. These heifers are EU accredited and have been bred using the best of genetics, making them suitable for most breeding, or fattening operations. Introduced to a grain ration on November 9, in a paddock situation, to assist the heifers through the dry conditions experienced at the time. These heifers have a reputation for performance on grain or grass and have the breed traits to retain as breeders or feed for domestic purposes.
