Temperament

YardsCrushPaddock

Quiet: 38 headQuiet: 34 headTemperament not assessed in

Steers were very quiet in all areas of the yards. Approximately 4 head did resent being in the crush but settled very quickly once they exited the crush.

Bikes

Notable Traits

Traits

3 Head Cloudy blue eye

2 Head Warts on neck

Assessor Comments

Buyers, a deck lot of good quality Angus steers bred from Angus females purchased from the New England area. These are in store condition, bred on lighter country and are just starting to clean up in the coat so I would expect these to provide plenty of compensatory gain and fly ahead if they get access to good quality feed or crop on some heavier country. These steers are very quiet and the vendor's always do an excellent job throughout the weaning process and is reflected in these. These are ideal to background to heavier domestic or export feeder weights. There is a bit of a weight range which is quite common and is a reflection of the gap in their age of 7-11 months. These don't look to have had any setbacks, it did get dry here back in the spring but were weaned later to give them every chance to grow out. These cattle are attracting repeat buyers so that is evidence they must perform. The country is lush from Melbourne to Mareeba so don't sit back, they will only get dearer.
