Assessor Comments	An even line of EU accredited, vendor bred, crossbred heifers that originate from a highly regarded cow herd. These heifers display the breed attributes to indicate they would make matronly future breeders, or historically have proven to fatten on either pasture or grain. The heifers are on the do, with Opti weigh systems indicating a recent ADG of over a kilogram a day. NB heifers did have an overnight visit from a neighbours bull, will be needed prior to delivery and the purchaser will be provided with the batch number on delivery.
