Assessor Comments	An attractive line of Charolais/ Euro x heifers that would be ideal to carry through as feeders for domestic markets, or would equally be suited as future breeders. Heifers were purchased by the vendor from the local district as young weaners and have continued to move forward on native and improved pastures. They were recently drenched with Dectomax (1/12/23) as well as having an induction Vaccination of 5 in 1 and Multi-Min injection in their first initial week of purchase. These heifers have been well handled and were a pleasure to handle during Assesment.
