Assessor Comments	Tops of the drop. Highlands Angus annual draft of February March drop calves with the tail drafted out. They are true to type Angus cattle out of a self replacing herd with over 20 years of rich genetics in their blood. The cow herd is Dunoon and Witherswood blood while these steers are sired by outstanding Riga Angus bulls. The quality is evident in the bone , type and shape of the steers. The animal husbandry shows in the shine of the coat and exceptional temperament of the cattle at this young age. These steers are highly recommended for their temperament and will not disappoint in performance. Buyers please note one of the steers has a few warts on his neck but not deemed detrimental.
