	Cattle handled as expected for freshly weaned calves, with the majority being well behaved with a handful being shy of human contact. When being pushed through the race and on the scales, cattle showed limited signs of distress, with only a small percentage becoming agitated. Steers were respectful when being blocked and stayed in close proximity when being photographed.

Assessor Comments	Offering a well bred draft of Rennylea Angus steer weaners on behalf of Kelly & Boulton of Creightons Creek. These steers present in strong, healthy store condition displaying the phenotype and bone structure that would be ideally suited to target feedlot entry weights or suited to grow their cattle out into heavy grassfed bullocks. Steers have been yard weaned for three days and are still remaining fresh considering the weather and weaning process. A tail end has been removed ensuring a genuine lead draft. Please note the vendor has another draft of 7 heifers from the same drop on offer in the same sale. Grass Fed only, Antibiotic Free.
