	Steers behaved very well through yards considering only second time back through since weaning. Only a couple str stirred up slightly in crush but settled well once returned to mob

Assessor Comments	Buyers here is an opportunity to secure a VGQ line of the Wansey Downs weaners. All the hard work is done, weaned, educated and starting to bounce ahead on green feed. There is good compensatory gains to be had as steers are store condition coming out of very dry period before recent rains .They are out of large framed Warren Point and Rosevale blood cows sired by predominately Drensmaine and Rosevale Santa -and Warren Point Hereford Bulls. These strs show great length and bone and tremendous weight for age and are highly sought after by repeat buyers. Ideally suited for the Domestic Trade or taken through to heavy feeder weights or grass bullocks as they are 100 % lifetime traceable, hormone and grain free to suit the lucrative pasture fed market. Buyers these steers come highly recommended. Please note 3 str had old blight scaring and 2 with slight fluid swelling in purse neither considered detrimental. Vendor also has 2 decks EuroX steers in same sale
