Assessor Comments

Here's an opportunity to purchase a small lot of unweaned steers that are ideal to background. Steers average weight is 225kg at assessment. These cattle are well handled by good stockman with horses, dogs and buggys and are easy to handle in paddock and yards. Steers will remain on cow until delivery. N.B. one Angus cross steer has small amount of white on face & another has small content of bosindicus.
