Assessor Comments	A great opportunity to purchase a nice line of vendor bred Angus x Angus steers. Antibiotic free and Grass fed. These steers have plenty of frame and growth to work with and will really respond well to some good feed. They have been running on very short kikuyu with them going through not a great season so far. Steers are sired by Knowla, Curracabark and Urban Angus bulls. The potential is there to grow out to heavier feeder weights or MSA kill specs. Steers avg 331kg at assessment with range 280-362kg. No detriments noted. Please note, vendor has heifers in same sale to assist with trucking.
