Assessor Comments	A quality line of 11 vendor bred bucket reared F1 heifer calves being out of large frame friesian cows and sired by Ai & Stud Merridale Angus bulls. All of the calves have been weaned vaccinated & drenched for your convenience. The calves are very well grown for their age and would make ideal cattle to put away before grass fever really takes off. These calves present an excellent opportunity to purchase a small line of Angus X F1 calves that are backed by the Merridale Angus		

breeding program with all the hard work already being done for you. Just show them the feed, and watch them grow. Please note there was 1 calf treated at assessment for pink eye. Please note the vendor is also offering another lot of male calves in this sale.
