Notable Traits

	Traits
3 Head	Weeping eyes (light scarring)

Assessor Comments	Offering 80 backgrounder heifers that averaged 205kg live at assessment. These heifers are predominately out of purchased Brahman cross cows and are sired by Angus Bulls. The heifers have been all weaned with some being pulled off in October and the remainder of the later calves weaned in early January so have had a month to settle after weaning and start to move ahead. Overall the heifers handled well in the yards and are on a rising plane of nutrition going ahead. Please note there were 4 heifers noted with weeping eyes and 1 with light scarring on one eye.
