Assessor Comments	Buyers, a great opportunity presents itself to purchase a neat group of 12 Very Good Quality Kulkynne Brangus commercial Weaner heifers for your operation. These heifers are on offer due to no fault of their own, and would be ideal replacement breeders to a commercial operation looking to introduce new bloodlines, or a new or existing Brangus stud looking to potentially have these heifers enrolled under their own prefix. Heifers are all polled and are safe to handle through the yards. Heifers would carry approx 30 - 40% Brahman content. Buyers please note, one heifer has a very small amount of white on udder and one heifer with white on navel and brisket which would mean she would no pass to be Brangus Australia Enrolled. Sires of these Heifers are also unable to be DNA verified. A great chance to secure heifers from a notable Brangus stud.
