	Other Treatment	24/01/2024	Amitik Dip
	Other Treatment	19/01/2024	Amitik Dip

Vendor Comments	This is a line of Simmental cross heifers out of one mob of our cow herd that we retained from last years weaners to grow on to sell at a later date. Heifers have done well during a dry period since weaning			
Joining Details	Not Station Mated			
Any Access To Bulls or Stags?	To vendor's best knowledge, this lot has had no access to bulls or stags.			
	Quality Grades		Store Condition	
	Very Good	80%	Store	100%
	Good	20%		
Temperament	Yards		Crush	Paddock
	Quiet: 35 head		Quiet: 38 head	Quiet: 42 head
	Slightly Stirry: 9 head		Slightly Stirry: 6 head	Slightly Stirry: 2 head
	6 heifers in crush were slighty stirry and 9 heifers in yard were slightly unsettled. Back in paddock heifers settled well and move along in mob quite easily			
Handled With	Bikes , On foot			
Notable Traits	Traits			
	1 Head Scale on back			
Assessor Comments	Here is very good line up of 44 store condition Simmental cross yearling heifers. These heifers account of the Patteson family of the South Burnett district are highly sought after weaners and renowned doing cattle when normally sold in Dalby and Coolabunia Saleyards. These heifers were bred in cattle tick free country, then weaned onto a cattle tick infected area block before being cleared back to the cattle tick free area in past few weeks. The heifers were 3 germ blooded prior to entering cattle tick infected area. These heifers are right to go to cattle tick free area or back to cattle tick infected area with no issues. These heifers have had plenty of yard handling. The lead of these heifers are ready to join to a bull and would make lovely breeders. Most of these heifers would suit any trade job. Please not one heifer has some slight scaling over her side and back which is not detrimental to her performance. Don't miss the opportunity to purchase well sought after cattle.
