Assessor Comments	Buyers a great line of straight Angus feeder Steers. These Steers were purchased out of the New England late in 2023 as weaner/backgrounding Steers. Since these Steers were last weighed they have been averaging 1.1kg p/day on the forage sorghum crop. Steers have been doing very room and still show room for compensatory gain to be had with these Steers still presenting in store condition. Buyers these Steers will be offered in 2 lots of 48hd to work for trucking purposes. Steers will be a run out the gate into two even lines to the best of our abilities.
