	Heifers were good to handle in the yards and crush, with two becoming slightly unsettled while standing in the crush and race. All settled well and remained quiet when being photographed.		
Handled With	Bikes , Dogs , Vehicles		
Assessor Comments	A good to very good quality line of Shorthorn and Shorthorn cross heifers. These heifers are vendor bred and are from a herd which have been on The Grove Shorthorn genetics from for at least 17 years. These heifers were unjoined and have been vet preg tested NDP for the buyers confidence. The heifers are mostly medium to large framed heifers, had a LWR of 305 - 455 kg after an overnight (15 hr) wet curfew in the yards. Heifers have also not had access to grain or cotton seed and are PCAS eliible. They would suit to either take directly onto feed or to grass finish for a range of high quality slaughter markets. Alternatively they suit to join with the top 33% potentially making high quality future breeders. Please note the two heifers with horns were tipped at assessment. Heifers are located approx 15km off the Gore Hwy north east of Goondiwindi.
