	Cattle were very good to handle in and through the yards. They were very settled in the yards and flowed easily from one yard to the next. One heifer was moderately agitated leading upto, in or exiting the crush. The balance were calm in the race and crush. All settled quickly when back in the bigger yard with the main mob.		
Handled With	Bikes		
Assessor Comments	A good to very good quality line of vendor bred EU Angus and Angus x Heifers. They are medium to large frame and suit to take directly onto feed for the domestic slaughter market feeder weights with the heaviest 10% at export feeder weights. The heifers are unjoined and have been vet preg tested 100% NDP for buyers confidence. They are EU accredited and are Grain and antibiotic free and would be eligible for a pasture finished programs. Cressaire has an extended but not continuous calving and has multiple paddock based weanings each year. As a consequence there is a slightly extended age and weight range in this line (11-17 months) with a LWR 306 - 471 kg full weight. They are sired by a mix of good quality stud bulls from Te Mania, Dance and Moorobie Angus. Three heifers noted with mild blue eye spots in one eye - not considered detrimental. The heifers are very quiet and were great to handle in the yards and suit a wide range of markets.
