Assessor Comments	Buyers a very good line of well bred Angus Steers being based on Landfall Angus bloodlines. These Steers have had the big curfew being trucked home from vendors New England property 2 days prior to assessing. Steers show very good weight for age, they good thick easy doing types. Steers are very well known around the Goondiwindi area based on performance and doing ability. These Steers are very even with only 4hd being between 270-300kgs at assessment. Steers are ideal to put away for a winter crop and to take through to heavier weights to suit Domestic and MSA markets.
