	Out of total Heifers assessed (112hd) they were good to handle and flowed through the yards well. In the crush while being weighed there was 16hd that did get agitated and wanted to surge forward. Once these Heifers were let out and returned to the bigger mob then they settled.

Assessor Comments	A good line of well bred Angus Heifers with majority of them originating from the Hailings Family from the Tamworth district. These Heifers show exceptional quality throughout the line and have been doing very well since recent rain. Heifers show good feminine heads and look to be good soft easy doing types that would be ideal for a replacement herd. Heifers will be offered in 2 lots of 66hd and at delivery they will be drafted as a run out the gate. Please note at assessment there was 1 Heifers treated for an active pink eye.
