Assessor Comments	Offering 171 x 171 good quality station mated cows and calves. The cows averaged 461kg live at assessment and are doing a great job on their calves with all calves weighed to average 163kg. These cows are all young 2 to 4 years old and show great temperament in the yards. The cows are all vendor bred from a herd that puts a large emphasis on fertility and temperament and this is shown in the cattle. These cows have been running back with black bulls since the 1st of January and will do so until delivery. Don't miss this opportunity to purchase genuine young breeders that would be an asset to any herd with a quick return to be made out of the large calves at foot and running back with black bulls. Please note 5 head noted with blight scarring, one with a short tail and some with fly rub around the neck and eyes.
