Comment on Fat Score 1 Cattle	Very strong forward to fresh/ fat condition
-------------------------------	---

Vendor Bred	Yes
Stock History	Bred at "Mellish Park" North of Cloncurry and trucked to "Neenah Park" Longreach last year. The "Mellish Park" herd comprises a blend of Brahman & Brahman/Droughtmaster cross cows.
Lifetime Traceable Bloodlines	Unknown Quality sires used are from Valera Vale & Rondel Droughtmaster plus + Ciawarra & Chatfield Brahman studs.

Grazing Conditions	Undulating pebbly downs country with soft areas of Gidyea and river channels running through the paddock. Neenah Park
--------------------	---

is experiencing a fantastic season with high quality and a variety of top feed as seen in the photos & condition of the cattle.

	The cows are handled with minimal staff in the paddock or yards. They are given free space & time to move without rushing. They muster & walk well to the yards moving freely through the pound & force at their own pace. If too much pressure is applied or they are isolated some cows will stir up accordingly - handled with experience are easily managed. There are 2 cows that did show aggression in the yard and described as cranky however in the crush the majority walked in and out without fuss.		Temperament not assessed in Paddock

Assessor Comments	50 x 44 Good quality Brahman & Brahman cross cows with very sappy calves at foot av: 171kg (41-371kg) The cows are Medium to Medium Larger frame with the odd very large. Ideal cows to split and fatten further (in great order now) with several young cows suitable to join and run on. They are doing a great job on the calves & milking well. 6 calves under 100kg, 22 100-190kg & 16 calves 190 - 371kg. With the lead easily ready to wean. The cows without calves appear well calfy to springing and are mostly young cows 4-5 years or younger.
