Assessor Comments	Buyers on offer is a line of 9 x 9 Station Mated Cows and Calves. This group are for sale due to no fault of their own and would be the ideal starter mob or to add to existing breeder numbers. Cows have been running back to the Brangus bulls of which are the sires of the calves, and have plenty of life left in them. This group would also suit someone looking to fatten and split down the track and have been mouthed all displaying solid full mouths. 3 male calves averaged 107kg and 6 female calves averaged 86kg at assessment. Buyers please note, one cow shows to walk with a slight wobble, however has carried this for her whole life and is not detrimental to her breeding ability. Overall a great chance to secure a neat line of quiet cows and calves for your operation.
