| Assessor Comments             | Buyers a great opportunity to secure a 3 deck line of good quality Angus Heifers with F1 calves at foot sired by 3D Wagyu bulls (see attachments for pedigrees ). Heifers were purchased from Vic as future breeders and are only now coming to the market as Vendor has sold property. Heifers present in store condition doing a great job on their first calf through very trying conditions until recent rain. The majority of heifers show good conformation and all the feminine characteristics to be an asset to most breeder herds and will continue to grow out and reach their potential given the opportunity. Please note 2 baldy white face cow, four heifers with white marking on udder, three with small blue spot in one eye, all not considered detrimental. Also note a 67kg heifer calf has a dog bite and 2baldy calf. |                                                                        |                                                                   |           |     |      |     |      |    |
