Assessor Comments	A neat line of Angus Heifers with their 1st calf at foot. Heifers were 590kg at assessment and are going forward with plenty of milk underneath them doing a good job on their fresh calves. Heifers are up to date with Pestigard and calves have been marked and had a 5 in 1. These young matrons will continue to grow into quality breeders and are ready for bull of your choice. 2 heifers noted with splash of white on udder, 2 noted with faint blue eye.
