Assessor Comments	A quality line of vendor bred PTIC Angus heifers to commence calving on the 19th of August for 6 weeks. These majority of these heifers were sired by Baldridge Command through AI and are showing great stretch and depth for their age. Heifer have been enjoying the good summer season at 'Boonderoo' and are in forward condition. Heifers were selected for the vendors annual AI program, but missed out and have been picked up by LBW Alloura and Topboss Angus Bulls. These bulls have all been successfully used over last years heifers. A great opportunity to secure well-bred heifers that will make a welcome addition to any breeding enterprise.
