Assessor Comments	A nice line of Angus heifers joined back to the Angus bull for a spring calving. Heifers are surplus to requirements following a good scanning percentage. They present in fresh condition and if maintained will be in ideal calving condition. Bred from a renowned local herd, these heifers will mature into medium to large frame cows. The Wheeo herd is known for its high growth rates with their steers highly sought after in the Autumn calf sales. Note vendor has 5 x 2.5 year old heifers with same joining in this sale.
